LAN CABLE TESTER – CABLE LENGTH IDENTIFIER

- Main functions:
  - Check type 5, 5e and 6
  - Check cable sequence
  - Use TDR (time domain reflect meter), measure length and distance.
  - Find determine open-/short-circuit and jumper or crossfire
  - Service line test and no external adapter is required
  - Determine continuity and wiring pattern
- Features:
  - One person function - complete cable continuity check
  - Check wiring error in CAT5e, 6 coaxial cables and telephone lines
  - Tests open, short-circuit, jumper wire, reverse connection or crosstalk interference
  - Locate wiring or connection error
  - Measure cable length and determine distance of open and short-circuit
  - Dynamic calibration of cable length and length measurement as accurate as 97%
  - Simple and easy to use large screen
  - Portable unit with long battery lifespan
  - Automatic time delay shutoff
  - Measure length and pair with or without far end recognizer
  - Far end recognizer with alarm sound
  - Self-checking function and automatically compensate any change in battery capacity or ambient temperature
  - Suitable for LAN and coaxial cables

PART NO - ST-CT1808
